

Nutan Khangar

UI/UX Designer who loves turning real-life problems into simple, meaningful digital experiences. From freelancing to start-up projects, I've designed for impact, balancing logic with creativity to make every pixel purposeful.

Work Experience

Freelance UX Designer at Ionicbox (Remote)

Feb 2024 - Present

- Delivered end-to-end design solutions for diverse clients, including websites and mobile applications.
- Partnered directly with clients to define requirements, improve usability, and achieve measurable design outcomes.
- Designed modern, responsive interfaces that improved client engagement and visual appeal.

UI/UX Designer at Qubited (Remote)

Nov 2023 - Nov 2024

- Designed intuitive, user-focused interfaces for multiple digital products, improving overall usability and engagement.
- Created wireframes, prototypes, and design systems to ensure consistency and seamless developer handoff.
- Collaborated with cross-functional teams to translate business goals into user-friendly product flows.

Intern UI/UX Designer at Hobizzo LLP (Remote)

Feb 2023 - April 2023

- Assisted in creating visually appealing UI layouts and interactive prototypes for web and app projects.
- Contributed to user research, competitor analysis, and wireframe development.
